

Ballyfermot Drug Treatment & Rehabilitation Pilot Project

Client/service user selection

- a) The service will have an existing key worker and be subject /suitable for case management.
- b) The existing care plan will determine the suitability for referral into the case management pilot.
- c) The process will be voluntary.
- d) Service users will have scored 5 and above on the “Christo Inventory” or are deemed appropriate by some other agreed quantifiable measure.
- e) The service user will be made fully aware of the possibility of the need for sharing confidential information within the case management process. Their agreement will be sought in advance of any information being shared.
