SE Substance Misuse Services Case Management & Inter- Agency Checklist

The National Drugs Framework and National Protocols highlight the appropriate candidate for the case management system is a service user with complex needs and/or has multiple services working with them. Currently, the SE Region Senior Management/Regional T&R Group has not signed off on defined criteria at this time; it is envision that through the case management process and evaluation of cases managed through the *National Drugs Rehabilitation Framework* we will be establishing the South East Region Criteria for Case Management within Substance Misuse Services. Below represents Desktop reviews of international practice in substance misuse services case management systems to give us a benchmark for criteria to consider when assessing a service user for NDRIC Case Management. These are as follow for workers to consider:

Complex issues are defined as:

☐ Life threatening/high risk situations. (SE Region HSE Substance Misuse Services has	☐ Where the involvement of protective & custodial agencies with the family has been	
identified these priority treatment criteria:	over a lengthy and sustained period.	
Pregnancy, Under 18's, Child Protection, Self-		
harm/Suicide & Injecting)		
☐ Cases where at least three of the following	☐ When age of the client creates special	
factors are combine:	consideration	
☐ Serious/sustain abuse		
 Multiple difficulties present in family 		
 Intellectual or psychiatric disability 		
☐ Chronic & serious drug addiction		
affecting individuals capacity		
☐ Where a wide range of other services are	☐ Cases with high public/political sensitivity	
involved, i.e. Community, Legal, Medical & Police	requiring sensitive and experienced case	
	investigation & management	

SE Region NDRIC Case Management Checklist Inventory

Does this service user fit the criteria for NDRIC Case	☐ Yes		
Management?	□ No		
Have you discuss the NDRIC Case Management	☐ Yes		
process to the service user?	□ No		
Does the service user agree to be case managed?	☐ Yes		
	□ No		
	☐ Not at this time		
Reasons for declining case management? (Service			
User does not have to answer this question)			

Sharing of Information Protocol explained	□Yes	
	□No	
If service user is over 18 years of age: does he/she	□Yes	
wish to include their family or concerned person in	□No	
their case management process?	□Not at this time	
	☐Yes, due to under-aged service user	
Consent signed for case management/Case	□Yes
